PUBLIC SECTOR TECHNOLOGY
LEADERS BREAKFAST

BRIEFING & DISCUSSION

THE IVY, WEST ST, WC2

SEPTEMBER 27TH

SUPPORTED BY
AWS & COLIBRI DIGITAL
(PART OF THE NASSTAR GROUP)

London, England

Dear Members & Invited Guests,

Directors Club United Kingdom cordially invites you to the annual Public Sector Technology Leaders Breakfast at The Ivy on West Street.

The agenda will mix learning, knowledge-share and networking in a relaxed, informal setting.

The hot-topic for this year's gathering has been set by AWS and their partner Colibri Digital (part of the Nasstar Group) and is titled:

Big Data, Big Outcomes: How analytics can transform public services and improve citizens' lives

WHEN

Wednesday, September 27th

Teas, Coffees, Juices & Breakfast Canapés from 8.30am

Agenda from 9am until 10.30am

Informal Networking until 11am

WHERE

The Private Room at The Ivy, 1-5 West St, London WC2H 9NQ

R.S.V.P.

To accept this invitation (no charge), please complete a short online R.S.V.P. form.

Kind Regards,

Jon Snow

Chair

Directors Club United Kingdom

AGENDA

Big Data, Big Outcomes: How analytics can transform public services and improve citizens' lives

BRIEFING

Discover how the latest advanced data science and AI techniques can help public bodies unlock the power of cloud. Leverage modern data platforms, improved citizen insights and dynamic digital solutions to achieve tangible ROI and a sustainable future for all.

We'll help make sense of your data:

- A single, centralised repository: Share data from multiple agencies to improve health and social outcome for patients whilst ensuring data privacy
- Predict events: Use traffic data and IOT information from sensors to predict traffic flows
- Enable fraud detection: Validate users, detect anomalies and threats in real-time
- AI and Machine learning: Document translation for all communities

This briefing will be co-presented by [AWS](#) and [Colibri Digital](#) (part of the Nasstar Group).

DISCUSSION

In today's hyper-connected and fast-changing world, traditional solutions simply won't work. As such, public bodies need to not only rethink how they deliver services today but plan better for tomorrow.

We'll discuss:

- How to overcome distributed data sources to achieve economies of scale, transparency and manage governance.
- The requirement to deliver greater value and citizen experience with a reduced budget and set of resources.
- The demand to find sustainable ways to utilise cloud technology and achieve ROI.

The Chatham House Rule will be invoked.

WHO

You will share the morning with a handpicked group of technology-centric leaders and stakeholders from significant public sector organisations.

R.S.V.P.

To accept this invitation, please complete the short online R.S.V.P. form.

FORMAT

Our Leaders Breakfasts are designed to deliver learning, knowledge-share and networking.

The agenda combines 30 minutes of seminar briefing, followed by 60 minutes of roundtable discussion.

Delegates will have the opportunity to network informally for 30 minutes on either side of the agenda.

SPONSOR

This Public Sector Technology Leaders Breakfast is generously supported by leading cloud provider, AWS and AI and data engineering specialist, Colibri Digital (part of the Nasstar Group).
